

**MINERAL ALLIES**

## INTRODUCTION

---

Welcome to your Personal Blueprint of Mineral Allies. This blueprint is made possible by the pioneering work of John Pehrson, who developed the system of Mystical Numerology, upon which it is based. This system understands that, like instruments in an orchestra, everything in life “sings” at its own unique frequency (or, to be more accurate: its own *constellation* of frequencies). Certain notes sing beautifully together: a phenomenon that we refer to in such terms as *resonance* or *harmony*.

This blueprint has been assembled by calculating your primary personal frequencies, and matching them to resonant mineral frequencies. All of these frequencies have been specially calculated + confirmed using John’s unique system of numerology. They’re entirely specific in this way: relevant, important, and alive. What this means is that the blueprint you now hold is completely personal to *you*.

These Mineral Allies wish to sing themselves into your human story in a way that will enhance, uplift, and beautify your life. All that remains is for you to recognize, receive, and honor the generosity of their presence (like you would for any other friend).

As a final note, since it is occasionally possible for multiple positions on your numerological blueprint to exhibit matching frequencies, some Allies may present themselves more than once, in more than one position.

(Please place special emphasis on any Allies that return to you like this. It is significant.)

## HOW TO USE

---

Your Mineral Allies are here to instruct, empower, and support you. Over time, they will fulfill many different roles, depending upon the shifting needs of your unfolding story. Your Mineral Allies will prove themselves to be effective as Companions, Teachers, Medicine, and Tools. They will reveal the optimal expression of your nature, remind you of inherent talents, challenge you to recognize + honor the significance of your story, and provide the fuel you need to meet each necessary step along the way.

The Allies represented in your Blueprint are inviting you to meet yourself anew. They are offering themselves to you, in service. Take time to reciprocate that courtesy. Give yourself permission to explore + learn about each one. Of greatest importance: make the most of any opportunity to experience your major Allies one-on-one, in person, over time.

If you read a description about any of these Allies, imagine that you're looking in a mirror. Recognize that what you're reading is an invitation + a sign: calling for a return to your True Self, celebrating your inherent power, or encouraging that next courageous step into your life.

Finally, don't forget to take context into account, since each of these Allies serves to illuminate or support very specific positions of your Blueprint. In many cases, this will require thoughtful consideration over time, a process known as Contemplation.

Without fail, the more *time* you can offer any given Ally (directly through physical contact or indirectly through inner contemplation), the more you will discover + receive.

So *have fun* researching your Allies, encountering your Allies one-on-one, communing with your Allies, carrying your Allies close.

*What you offer them returns itself to you a hundred-fold.*

## MATCH TYPES

---

### **FREQUENCY MATCH**

This is a highly specific numerological match. It is derived from what is often referred to in numerology as the *unreduced total* of a position's calculation. It is the most prominent, most personal, and oftentimes most powerful match of the three.

### **AMPLIFIED NUMBER MATCH**

This is a specially empowered match. In numerology, a *zero* (often referred to as a *cipher*) represents the God power: a highly spiritual or divine expression. A zero beside any number amplifies + spiritualizes its expression.

### **NUMBER MATCH**
